

CLAIM AMENDMENTS

1 1. (Currently amended) In an automobile having a
2 vehicle body with a roof, the combination therewith of a frame
3 overlying a portion of said roof with a outline corresponding to
4 that of a sunroof, around a portion of the roof without a roof
5 opening and simulating a sunroof, and at least one member
6 adhesively or magnetically affixing said frame to said roof of
7 said vehicle body.

1 2. (Original) The combination defined in claim 1,
2 further comprising a panel affixed to said frame and spanning an
3 interior thereof and simulating a sunroof panel.

1 3. (Original) The combination defined in claim 2
2 wherein said member is an adhesive interposed between said frame
3 and said vehicle roof.

1 4. (Original) The combination defined in claim 2
2 wherein said member is formed by a magnet.

1 5. (Original) The combination defined in claim 4
2 wherein a portion of said frame is magnetic.

1 6. (Original) The combination defined in claim 1
2 wherein said member is an adhesive interposed between said frame
3 and said vehicle roof.

1 7. (Original) The combination defined in claim 1
2 wherein said member is formed by a magnet.

1 8. (Original) The combination defined in claim 7
2 wherein a portion of said frame is magnetic.

1 9. (Currently amended) A universal automotive vehicle
2 appearance enhancer, in combination with a vehicle body,
3 comprising a frame adapted to be secured to a portion of said body
4 having a window-free surface adapted to span the interior of said
5 frame, a panel within said frame having the appearance of a window
6 on said body, and means adhesive or magnetic for attaching said
7 frame to said body.

1 10. (Original) The enhancer as defined in claim 9
2 wherein said frame overlies a roof of said body and simulates with
3 said panel a sun roof.

1 11. (Original) The enhancer as defined in claim 9
2 wherein said frame is affixed to a side wall of said body and with
3 said panel creates the appearance of a window in said body

1 12. (Original) The enhancer as defined in claim 9
2 wherein said means is magnetic.

1 13. (Original) The enhancer as defined in claim 9
2 wherein said means is an adhesive interposed between said frame
3 and said body.

1 14. (Original) The enhancer as defined in claim 9
2 wherein said panel is composed of glass.

1 15. (Original) The enhancer as defined in claim 9
2 wherein said panel is composed of a plastic.

3 16. (Original) The enhancer as defined in claim 9
4 wherein said panel has the form of a bubble projecting outwardly
5 from a plane of said frame.

1 17. (Original) The enhancer as defined in claim 9
2 wherein said frame has a chromium finish.

1 18. (Original) The enhancer as defined in claim 9
2 wherein said frame is polygonal.

1 19. (Original) The enhancer as defined in claim 9
2 wherein said frame has a curved configuration.

1 20. (Original) The enhancer as defined in claim 9
2 wherein the enhancer forms part of a kit of a plurality of
3 enhancers of different shapes.
